All multi-game ejections **REQUIRE** that the student, parents/guardian, and coach meet with the principal to discuss future behavior expectations, prior to reinstatement of participation. **The principal MUST communicate with the Section Commissioner/Designee that such meeting has occurred prior to reinstatement** (this can be done by email).

VII Other

A. All League selection - Baseball, Track and Field and swim / dive need to develop a process and submit for addition to the bylaws. These should be ready for the March BOM.

Flag football and boys VB will need to develop bylaw language. The deadline will be the March BOM.

B. Wet Bulb thermometer- Air quality (503.K.2) / Arbiter Pay - Both were discussed and the link from the section office was forwarded to each Athletic Director. C. Upload rosters- AD's were reminded to upload all rosters to Max Preps.

D. Section voting material for BOM - Jan. 30 is the next BOM. Athletic Directors will review with the Principal or designee the material to be voted on.

E. Administration in attendance at games - Schools are following bylaws. Not all events are supervised by an administrator but they are available. Discussion from the commissioners meeting was addressed regarding negative interaction by fans. Consensus by all that Coaches should not have to police the fans. It was noted, the stronger the administration is in dealing with disruptive behavior the fewer issues schools are having.
